

Phonological Awareness:

Instructional Activities for Use Throughout the Day!

A Resource for K-2 Teachers

Enhance your phonological and phonemic awareness instruction, helping ALL students learn to read!

Phonological Awareness: Instructional Activities for Use Throughout the Day! contains easy, materials-free activities for teaching various aspects of phonological awareness. These activities can be done throughout the day, during transition periods in the school day, and in small- or whole group.

The resource is organized according to the developmental timeline of phonological awareness skills, so activities are arranged easiest to hardest. If students struggle with a specific skill, move back to an easier skill and then ramp up instruction as the students gain confidence!

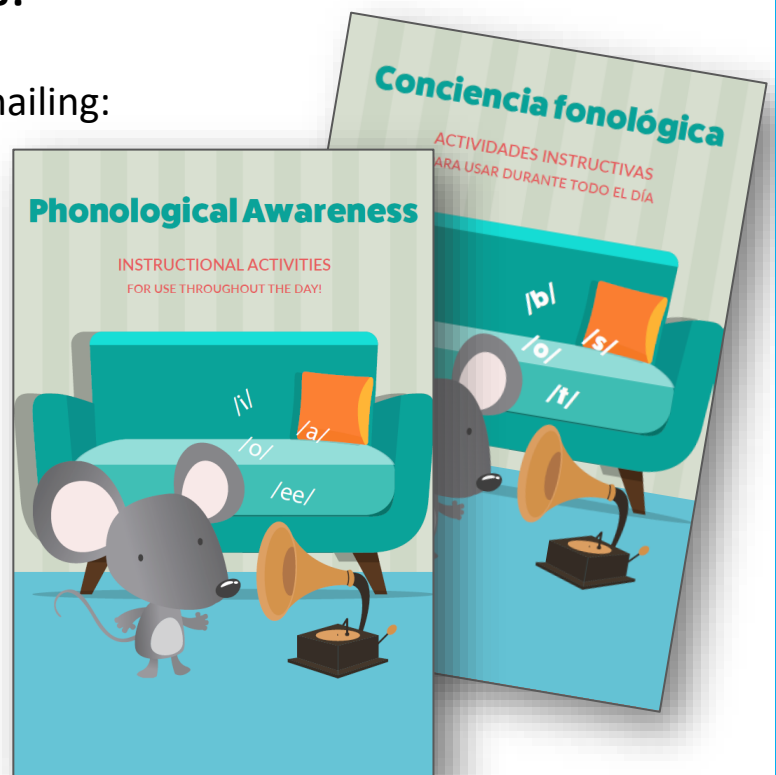

Strengthen Foundational Skills!
